Science

Living Things and Their Habitats

- Describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including micro-organisms, plants and animals.
- Give reasons for classifying plants and animals based on specific characteristics.

Computing

Programming - Sensing

- Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts.
- Use sequence, selection, and repetition in programs; work with variables and various forms of input and output.
- Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs .

P.E.

Rounders

- In P.E., this half term, pupils will learn the skills that players need in games such as rounders. They will learn how to catch, throw and bat across different distances with accuracy. They will develop their fielding skills by learning how to 'attack the ball' as well as skills of cooperation - exploring how working as a team helps to prevent the opposition from scoring points.

S.A.T.s

- This half term, we will continue to prepare for our upcoming S.A.T.s in May through completing maths, reading and S.P.a.G. practice papers, alongside revisiting key subject-specific concepts.
- Polite reminder: our next practice S.A.T. week will be 27 April 2026.
- Official S.A.T.s Week 2026 will begin **Monday 11 May 2026**.
